### Overview

Millennials prioritize self-care and mental wellness mental wellness more than past generations. A huge chunk of their self-care regimen includes traveling to visit family or friends and to be immersed in other cultures. Research into the United States tourism sector shows that Millennials travel more than other generations. According to United States Millennials travel 35 days per year, compared to 26 days for Generation X; 27 days for Baby Boomers; and 29 days for Generation Z.

While traveling is fun, the same can't always be said for packing. Packing can be a hassle and it's easy to forget essential items for a trip. Packr Travel Packing List would ease the stress of packing by providing access to a packing list at your fingertips.
